Agenda Item 1 INTOSAI Strategic planning – proposal for Goal 1

Standards for high quality audit (Professional Standards Goal)

Underpin the effective functioning of SAIs in the public interest, by providing, maintaining, and advocating for internationally recognised professional principles and standards that promote the excellence, credibility and relevance of public audit, and the quality of its output.

- Further develop the IFPP to achieve the aim of it being increasingly principles-based, as future-proof as possible, and ensure a more dynamic and flexible provision of guidance and other supporting material.
- Keep the technical content of the IFPP up-to-date and relevant to take account of developments in the profession, and feedback from users.
- Ensure the IFPP material is clearly drafted and presented, and makes appropriate use of modern technologies to ensure it is accessible in a way that is meaningful to users.
- Advocate for, support and monitor the implementation of the IFPP by SAIs, in order to gain feedback on its relevance and utility, and to identify opportunities for improvement.
